REASONS FOR ALLOWANCE

This is written in reference to application number 10/060153 filed on February 1, 2002 and published as US 2002/0182530 A1 on December 5, 2002.

Response to Amendment

1. Claims 2, 11 and 12 have been amended. Claims 2-4, 6-8 and 10-20 are currently pending.

Allowable Subject Matter

2. Claims 2-4, 6-8 and 10-20 are allowed.
3. The following is an examiner's statement of reasons for allowance: review of the prior art failed to teach and/or suggest a photopolymerization composition comprising a compound of claimed formula (2) wherein L21, L22 and L23 each independently represent an unsubstituted methane group as set forth in independent claims 2 and 11. Further, the prior art failed to teach and/or suggest a composition comprising claimed formula (4), (5) or (6) as set forth in independent claims 3 and 12. The examiner notes that the substitution on the said formulae (i.e., R12) is in a different position than that of the claimed formula (2). One ordinary skill in the art would not have been motivated nor would it have been obvious to modify the teaching of the prior art to meet the limitations of the instant claims.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
